PUBLIC NOTICE

Imperial County Division of Environmental Health
Local Enforcement Agency

Proposed Solid Waste Facility Permit Revision for the Mesquite Regional Landfill

PUBLIC NOTICE IS HEREBY GIVEN, in compliance with Section 21660.2 of Title 27 of the California Code of Regulations, that the Local Enforcement Agency (LEA) will be conducting an informational meeting regarding a proposed Solid Waste Facility Permit revision for the Mesquite Regional Landfill (Facility No. 13-AA-0026).

Date/Time: July 6, 2011 at 1:00 P.M.
Location: Imperial County Public Health Department Training Center
935 Broadway, El Centro, CA

Purpose: The meeting is being held to provide information about a proposed revision of the Solid Waste Facility Permit for the Mesquite Regional Landfill requested by the Sanitation Districts of Los Angeles County. The public will be offered the opportunity to comment and ask the LEA questions about the application package that was accepted for filing on June 15, 2011. A summary of comments from the informational meeting and any written comments received by the LEA prior to the meeting will be included with the proposed permit revision and accepted application package for consideration by the California State Department of Resources, Recycling and Recovery (CalRecycle).

Facility: Mesquite Regional Landfill
6330 East Highway 78, Brawley, California
(Located approximately 5 miles northeast of Glamis)

Operator: Sanitation District No. 2 of Los Angeles County
1955 Workman Mill Road, Whittier, California 90601
Tel.: (562) 908-4288

Project Description: The proposed permit revision would allow up to 4,000 tons per day of waste from Los Angeles County to be delivered to the site by truck in support of the existing waste-by-rail landfill facility, and would also permit the acceptance of up to 600 tons per day of non-hazardous treated incinerator ash at the site for disposal. The existing peak traffic limits for the site of 50 transfer trucks per day delivering solid waste from Imperial County would be modified to also include up to a maximum of 220 truck deliveries per day originating from Los Angeles County. The total permitted daily disposal capacity remains unchanged at 20,000 tons per day.

Additional information: A copy of the proposed revisions are available for review in the office of the Imperial County Division of Environmental Health (LEA), located at 797 Main Street, Suite B, in El Centro, California during regular business hours. Public comments will be accepted at the informational meeting or may be submitted in writing to the LEA prior to July 6, 2011. For other questions or information about the availability of appeals pursuant to Section 44307 of the Public Resources Code to challenge the issuance of a revised permit by the LEA, please contact the Imperial County Division of Environmental Health at 760-336-8530.

For information on any of this events, please contact City Hall @ (760) 344-3411.
