Beware of scams

2010 Census (Cautions from Better Business Bureau)
Ask for ID; do not give banking info
They will not contact you by e mail

**You may be getting a knock at your door soon, or
maybe a call. Follow these instructions. This is from
the BBB (Better Business Bureau).**

Be Cautious About Giving Info to Census Workers

**With the U.S. Census process beginning, the
Better Business Bureau (BBB) advises people t o
be cooperative, but cautious, so as not to become
a victim of fraud or identity theft. The first phase
of the 2010 U.S. Census is under way as workers
have begun verifying the addresses of households
across the country. Eventually, more than
140,000 U.S. Census workers will count every
person in the United States and will gather
information about every person living at each
address including name, age, gender, race, and
other relevant data.**

**The big question is - how do you tell the
difference between a U.S. Census worker and a
con artist? BBB offers the following advice:**

**** If a U.S. Census worker knocks on your door, they
will have a badge, a handheld device, a Census
Bureau canvas bag, and a confidentiality notice.** Ask
to see their identification and their badge before answering their
questions. **However, you should never invite anyone you
do not know into your home.**

**** Census workers are currently only knocking on
doors to verify address information. Do not give your
Social Security number, credit card or banking
information to anyone, even if they claim they need it
for the U.S. Census.** While the Census Bureau might
ask for basic financial information, such as a salary
range, the Census Bureau will not ask for Social Security, bank
account, or credit card numbers nor will employees solicit
donations.

**Eventually, Census workers may contact you by
telephone, mail, or in person at home. However,
The Census Bureau will not contact you by Email, so
be on the look out for Email scams impersonating the
Census...**

**Never click on a link or open any attachments in
an Email that are supposedly from the U.S.
Census Bureau.**
